

CONFIDENTIAL PARTNERSHIP PROPOSAL · JUNE 2026

Owning the INEOS Accessory Business in North America

A turnkey Parts Distribution Center + ENGAGE360 point-of-sale program

Ocean Automotive Group (Doral, FL) × **SmartDealer Technologies** (ENGAGE360)

Prepared for INEOS Automotive. Grenadier, US & Canada

INEOS and its dealers are leaking their most profitable revenue

THE ACCESSORY SALE WALKS OUT THE DOOR

- The Grenadier buyer is **built for accessories**: overlanding, towing, racks, recovery, protection.
- Today they buy the vehicle, then accessorize **somewhere else**. **INEOS** loses the rev-share, warranty control, and brand experience. **The dealer** loses the PNVR margin *and* the install labor. Financed profit that simply walks out the door.
- It's already happening: **Grenadier USA, Agile Offroad**, dealer-by-dealer portfolios, Thule/Yakima retail, Amazon.

Why it matters **now**

US is INEOS's **#1 market globally**, but 2025 volume softened and a **25% import tariff** is squeezing vehicle margin.

When unit growth is hard, high-margin accessory revenue becomes the most valuable dollar INEOS can add.

The window is closing. The aftermarket is grabbing the share **now**

- A specialty aftermarket is **already organizing around the Grenadier: Grenadier USA** (FL machine shop building its own parts), **Agile Offroad**, dealer-by-dealer portfolios, plus Thule/Yakima retail.
- Every month without a factory-backed program, that share **strengthens**. Buyers form habits, installers lock in relationships, and the channel hardens around someone other than INEOS.
- **First-mover wins the channel.** Whoever owns the accessory experience at launch owns it for the model's life.

We've run this play before

SmartDealer's principals built **Parts.com** (the #1 OEM parts destination, \$1B NASDAQ peak) and the **white-label parts & accessory commerce platform** for VW, Subaru, Kia, Nissan, and Chrysler/Mopar, by **capturing the channel before anyone else did.**

Move first with INEOS, and the aftermarket never gets the foothold.

The demand is real, measurable, and under-served

Rugged-premium buyers spend heavily on accessories. The Grenadier buyer sits at the very top of that curve.

\$1,700

Avg OEM accessory spend, Ford Bronco owner (Ford/C&D data)

2 to 3x

Grenadier price vs. Bronco. Wealthier, more committed buyer

\$5,000

Realistic Grenadier accessory PNVR with a structured program

WHY THE GRENADIER OVER-INDEXES

- **Purpose-built overlander:** racks, awnings, recovery, storage, lighting, protection are core to ownership.
- **\$75K to \$100K buyer:** high disposable income, identity-driven, brand-loyal.

THE GAP TODAY

- Bronco's \$1,700 is **OEM-captured**. INEOS captures a **fraction** of its larger per-unit opportunity.
- The difference is the **leak**, and the prize this program captures.

One end-to-end turnkey program

1 • The PDC

Ocean builds a **multi-million-dollar Parts Distribution Center in Doral, FL**, minutes from Miami Int'l. Drop-ships to any INEOS dealer in the US & Canada. **West Coast PDC** committed as volume scales.

2 • The Packages

A curated "**Grenadier Garage**", like Ford Custom Garage. Tiered, fitment-guaranteed bundles from vetted premium vendors: **Thule, Yakima, ARB, Rhino-Rack, Front Runner, Warn**. Warranty integrity protected.

3 • The Technology

Custom **ENGAGE360** across every US & Canada dealer: 4D/AR visualization, **F&I financing tie-in**, live dealer + PDC inventory, and **automated drop-ship** when on-hand is short.

Capture in F&I

Financed into the deal

Zero INEOS capital

Zero INEOS ops burden

We're not inventing this. We're bringing INEOS a model that already prints money

Ford has run the exact playbook for years, and SmartDealer operated the digital sales engine behind OEM accessory commerce with J.D. Power.

Ford Accessory Distributors (FAD)

Ford's network of **regional accessory PDCs** (e.g. Southwest FAD: CA/AZ/NV/NM/AK/HI) where OEM accessories are **Warehoused** for the dealer network. **Exactly the PDC model Ocean proposes.** Validated for decades.

Ford Custom Garage

"Turnkey customization **packages designed and backed by Ford**" for Bronco & F-150, dealer-installed, sold at point of sale. **The exact concept the "Grenadier Garage" clones.**

SmartDealer × J.D. Power

White-label OEM parts/accessory commerce built with **J.D. Power** + VW, Subaru, Kia, Nissan, Mopar. **We ran this engine at OEM scale.**

Why it matters to INEOS: FAD + Custom Garage is a **proven, high-margin profit center** at one of the world's largest automakers. Ocean + SmartDealer bring INEOS that **same model, purpose-built for the Grenadier**, with operator-level understanding of how it makes money.

ENGAGE360 captures PNVR at the point of sale

PROVEN DEALER RESULTS

155%

Increase in accessory PNVR

\$125K

Accessory sales / month / dealer

79%

Margin on visualizer attach

HOW IT WORKS IN THE STORE

- Customer sees their **exact Grenadier** configured in 4D/AR with the chosen package.
- Accessories **priced, bundled, and financed in the F&I office**, before they leave.

HOW IT WORKS BEHIND THE SCENES

- Platform tied to **dealer + PDC live inventory**.
- If stock is short, it **auto-triggers a drop-ship** from Ocean's PDC. No stockouts, no lost sale.

The revenue INEOS captures, at \$0 cost

Illustrative · \$5,000 accessory PNVR · 5% revenue share to INEOS · confirm volume with INEOS

Unit Volume / yr	Accessory Revenue	INEOS Rev-Share @ 5%
7,000 (conservative)	\$35.0M	\$1.75M
8,000 (2024 US actual)	\$40.0M	\$2.00M
10,000 (growth case)	\$50.0M	\$2.50M

\$0

INEOS capital required

~\$11.6M

10-yr INEOS share (5%, 8K units)

100%

Incremental. Captured today: zero

This isn't a two-model bet. It's an expanding lineup

Confirmed by INEOS CEO Lynn Calder (Autocar, 2026). Lock the 10-yr exclusive now → own accessories for **every model that follows**.

Model	Timing	What it adds
Grenadier Wagon	Now	Core premium 4x4
Quartermaster	Now	Pickup. Towing/utility accessories
Fusilier	~2028	Smaller SUV below Grenadier. Younger, lifestyle buyer, higher volume
Model #4	Post-2028	EV / PHEV / ICE
Model #5	Post-2028	EV / PHEV / ICE

Why this magnifies the deal

- **More models = more units = a bigger accessory pie** for all three parties.
- The **Fusilier** opens a younger, lifestyle buyer who **over-indexes on accessories**.
- INEOS ambition: **up to 250K vehicles/yr by early 2030s**.
- A 10-yr exclusive signed today positions Ocean's PDC for the **entire roadmap**, not just the two models on sale now.

The North America ramp

Vehicles sold = projected INEOS units sold across the US & Canada each year. **Attach rate** = the share of those buyers who add an accessory package. It climbs as the program matures and more dealers run ENGAGE360. **Accessory revenue** = **Vehicles sold** × **Attach rate** × \$5,000.

Year	Vehicles Sold	Attach Rate *	Accessory Rev	Ocean GP	Dealer PNVR	INEOS @5%
2026	8,500	45%	\$19.1M	\$2.4M	\$3.2M	\$0.96M
2027	11,000	52%	\$28.6M	\$3.5M	\$4.8M	\$1.43M
2028	14,000	58%	\$40.6M	\$5.0M	\$6.8M	\$2.03M
2029	18,000	62%	\$55.8M	\$6.9M	\$9.3M	\$2.79M
5-YR	74,500	n/a	\$218.9M	\$27.2M	\$36.5M	\$10.9M

\$218.9M in accessory revenue flows through the program over 5 years, from demand INEOS captures **none** of today. Plus dealer installed-labor revenue on top.

** Attach rate is the share of buyers who add an accessory package. At 45%, 45 of every 100 Grenadier buyers take a Grenadier Garage package. It rises over time as more dealers run ENGAGE360, F&I teams are trained, and the visualizer lifts conversion.*

Everyone makes money

5-year cumulative · on a \$5,000 accessory PNVR

\$27.2M

OCEAN, distributor gross profit (15 to 20% B2B)

\$36.5M

DEALER, PNVR gross profit (20% B2C) + install labor

\$10.9M

INEOS, rev-share @5%, zero capital

The stack on every \$5,000 package

Vendor COGS **\$3,546** → +17.5% B2B → Ocean sells dealer at **\$4,167** (Ocean GP **\$621**) → +20% B2C → customer finances **\$5,000** (Dealer PNVR GP **\$833**) → INEOS share **\$250**. **Three margins, one transaction, captured in F&I.**

One transaction. Three margins. INEOS gets a check.

🚩 INEOS receives its 5% revenue-share check of \$250 per package, off the top, automatically, for zero capital and zero work.

A 10-year exclusive partnership

Ocean + SmartDealer invest

- Multi-million Doral PDC + committed West Coast PDC
- Custom ENGAGE360 build, deploy, train, support
- Vendor sourcing, packages, fulfillment, integration

INEOS provides

- **10-year exclusivity** as sole US & Canada accessory PDC
- Network endorsement + brand/fitment data
- **\$0 capital · no operational lift**

Revenue share to INEOS

A **5% revenue share on net accessory revenue**, in exchange for exclusivity. Incremental, zero-cost, high-margin revenue on demand INEOS loses today.

Exclusivity that protects INEOS, not just Ocean

A 10-year exclusive only works if INEOS is protected. It is, by performance gates and ironclad brand/warranty terms.

Performance SLAs

- Committed **fill-rate & drop-ship lead-time** guarantees.
- Annual **attach-rate & dealer-adoption targets**.
- Transparent **performance reviews** with INEOS, so the program is always accountable to its results.

Brand & warranty integrity

- Only **vett**ed, **fitment-verified** parts, no random aftermarket.
- **Vehicle warranty preserved**; Ocean + vendors carry **product liability**.
- INEOS holds **approval rights** over packages, vendors, pricing & marketing, so it looks and feels INEOS.

Net: INEOS gets the upside of an exclusive partner who has skin in the game, with the downside protection of clear performance accountability and zero brand/liability exposure.

Phased rollout

Phase	Timeline	Milestones
0 • Agreement	Q3 2026	Sign 10-yr exclusive + rev-share term sheet
1 • Doral PDC	Q3 to Q4 2026	Warehouse, inventory, vendor onboarding, staffing
2 • Platform	Q3 to Q4 2026	Prepare custom specs including 3D, inventory integration, F&I tie-in
3 • Pilot	Q1 2027	3 to 5 flagship US dealers live; validate PNVR + drop-ship
4 • Full rollout	2027	Full US + Canada deployment, training, marketing
5 • West Coast PDC	Volume-triggered	Second PDC online as volume justifies

THE ASK

"Give Ocean and SmartDealer the exclusive right to power your North American accessory business, and we'll turn a revenue leak into a financed, branded, point-of-sale profit center, built and run entirely on our capital, with a share of the upside paid to you."

- 1 · 10-year exclusive US & Canada parts & accessory PDC
- 2 · 5% revenue share
- 3 · Network mandate to deploy ENGAGE360 + the Grenadier Garage
- 4 · Joint West Coast PDC as volume scales
